2013 PRE-MED HOSPICE VOLUNTEER PROGRAM

Overview: Athena Institute for Women's Wellness Research is pleased to award Bryn Mawr Presbyterian Church a hospice grant to recruit local pre-med college students in order to "inoculate" them with a sense of the spirituality, humanity and concerns of end-of-life patients. Students will:

- Volunteer their services to local hospice patients
- Analyze their experiences and submit report for evaluation
- Suggest improvements to both BMPC and Athena Institute
- Progress toward their goal of medical school admission
